Objective:

I am highly motivated and enthusiastic university student pursuing a degree in Information Technology at Bahir Dar University. I am seeking a summer internship opportunity to gain practical experience in building and deploying innovative software solutions. Skilled in database management systems, full stack web development (react, node), and mobile app development (react-native). I am quick learner with strong communication and teamwork skills, dedicated to contributing effectively to the goals of the organization.

Education:

- University: Bahir Dar University
- Program: Information Technology
- Expected Graduation Year: June,2017

Academic Achievement:

Courses:

- C++, C, C#, Java, HTMLC, CSS, JAVASCRIPT, PHP, React Native, Python, SQL .

Technical Skills:

- Frontend Web Development (HTML, CSS, JAVASCRIPT, BOOTSTRAP, REACT).
- Backend Web Development (NODE, EXPRESS, PHP).
- Version Control Systems (Git and GitHub).
- Database Management Systems (MYSQL, MONGODB, FIREBASE).
- Mobile Application development (REACT NATIVE)
- Other skills like how can I use UI library (material UI, chakra UI), react-bootstrap, postman, thunderclient, vercel and other visual studio code skills.
- I have idea about how can I use sass and tailwind css but I am not familiar.

Soft Skills:

- Ability to work effectively in team environment
- Excellent communication and interpersonal skills
- Ability to work effectively in team environment

Projects:

- Full stack my personal portfolio website using react, node, express, and firebase .Also developed a portfolio using HTML, CSS and JavaScript.
- Scientific calculator developed using JavaScript and React, deployed on Vercel.

- I have done bootstrap project and I deploy it in vercel(<https://bootstrap-pro1-gq3ndg37d-mekibib-atlaws-projects.vercel.app>).
- Full stack Registration form using react, node, express, MongoDB .Also implemented using JavaScript and php also.
- Weather App using react and weather API (<https://weather-bo9ojvrey-mekibib-atlaws-projects.vercel.app>).
- Gemini clone using react and google Gemini API (<https://gemini-clone-app-91rx-8db5g2c7r-mekibib-atlaws-projects.vercel.app>).
- Real time chat app using react and firebase (to be deployed on vercel soon).
- My own social media app just like Facebook (frontend using react completed and backend using node, express, and MongoDB in progress).
- Ongoing project: Mobile app using React Native.
- Completed various simple projects (e.g., to-do list, clock, restaurant booking, image search, age calculator) using HTML, CSS, JavaScript, and React.
- Source code for all projects available in my GitHub repositories.

Interests

- I am highly interested in full stack development especially using react, node and mobile app development using react-native.
